## FISAF and World Anti-Doping Agency Partnership

FISAF has implemented the WADA Athlete Outreach Model for the first time in Eindhoven.

By adopting the Athlete Outreach Model, National Anti-Doping Organizations, National Olympic Committees, International Federations, National Federations and other sports organizations can easily and efficiently deliver athlete outreach in their own countries or sports.

This comprehensive program offers all the elements needed for an Outreach Program:

- The Play True Quiz (an interactive computer game, also visible at [www.fisaf.org](http://www.fisaf.org))
- Templates for banners
- Templates for anti-doping publications
- Templates for prizes for athletes

The modular design allows choosing the elements that best fit your outreach needs and resources. You can customize your materials by co-branding them with their logo and WADA's partnership logo.
